什麼是 òmekanz™ - 奧米加植物?

òmekanz™ 提供世界上種類最多的草本奧米加營養。我們所提煉出的奧米加油來自紐西蘭奧米加植物。在精選紐西蘭的優質微氣候種植, 奧米卡的產品有著豐富奧米加濃度及更高奧米加營養。

奧米加植物含奧米加 3, 6 和 9, 天然維生素及多種必需礦物質等營養價值, 對我們的健康至為重要。

òmekanz™ 只用100%草本奧米加油, 不含任何動物來源 (如魚油), 是目前少有的純素奧米加選擇。

What are òmekanz™ Omega Crops?

Grown in perfect NZ microclimates with enriched Omega concentration and nutrition, òmekanz™ omega crops are one of the best plant sources for Omega nutrition.

Our omega crops provides a range of Omega 3, 6 & 9 nutrients essential to our health & wellness. They also contain a variety of vitamins and minerals.

òmekanz™ omega supplements are 100% plant based, and do not contain any animal sources (e.g. Fish Oil). They are popular choices for vegan diets.

天然又豐富的營養價值更勝一籌

含有額外的奧米加成分以及各種維生素和必需礦物質, 為我們提供額外的健康益處, 例如支持大腦功能和降低膽固醇等。這類奧米加營養多數無法在人與動物的身體內產生, 但在奧米加植物中卻很豐富。

òmekanz™ 植物奧米加成分有:
• 奧米加-3 (α亞麻酸)
• 奧米加-3 (DHA)
• 奧米加-6 (亞油酸)
• 奧米加-9 (油酸)

Strong Natural Nutrition Profile

Plant-based omega sources often contain extra Omega components with various vitamins & essential minerals not produced by the human body and other animal sources (such as fish oil). These rare omega nutrients are essential to our health and provides extra health benefits such as supporting brain functions and lowering cholesterols.

òmekanz™ Plant based fatty acid nutrients include:
• Omega-3 (Alpha Linolenic Acid - ALA)
• Omega-3 (Docosahexaenoic Acid - DHA)
• Omega-6 (Gamma Linolenic Acid - GLA)
• Omega-9 (Oleic Acid)

òmekanz™ 奧米加營養更安全、 高純度和天然的選擇

與魚油不同, 從植物來提取奧米加成分使用 含0%不健康的油溶劑, 精煉步驟較少。

奧米加植物天然含有更高 (75%) 和更純的奧米加含量。在提取過程中, 我們使用直接冷壓技術, 在每個油膠囊中保留更多的營養價值。òmekanz™ 以最天然的形式保留植物奧米加營養, 不會非自然地改變其原本營養成分。

òmekanz™ OMEGA OIL Safe, pure & natural Omega nutrition

Unlike Fish oil, harvesting and extracting Omega content from plant sources uses 0% unhealthy oil solvent with less concentration refining steps. Omega crops naturally contain much higher (75%) and purer Omega content.

During extraction, we use direct cold press processing techniques which retains more nutritive values in each omega oil capsule. Our processes retain the plant omega oils in its most natural form and do not alter their original nutritional profiles mechanically.

òmekanz™ 奧米加油提供了 更健康更持續可靠的奧米加選擇

健康專家建議, 長期食用深海魚油會導致嚴重的健康問題 (例如認知功能下降、腎功能受損和高血壓等) 因為深海魚被海洋中的重金屬和其他污染物污染。因此, 許多人已轉向其他天然和更健康的有益脂肪酸來源。

òmekanz™ 奧米加農作物生長在紐西蘭100%不受污染的微氣候中, 成為更持續可靠的奧米加選擇。

òmekanz™ PLANT OMEGA Healthy & sustainable essential fatty acids sources

Research has shown that long term consumption of deep-sea Fish oil can cause serious health problems (e.g. decreased cognitive function, impaired renal capacity and hypertension etc.) because deep sea fishes are contaminated with heavy metals and pollutants in the ocean. As such, many have turned to other natural and healthier sources for essential fatty acids.

òmekanz™ Omega crops are grown in an 100% unpolluted and uncontaminated microenvironment in New Zealand as a sustainable choice of edible omega.
